Early Childhood and First Instrument Classes Spring 2023

Laura Barnet, Certified Dalcroze Eurhythmics Instructor

Young children respond naturally to music. With spontaneous delight, they listen intently, sing along, and move to the beat. At Hoff-Barthelson, our teachers build on these early inclinations, inspiring a deep enjoyment of music while guiding the development of music-making skills.

Our Early Childhood Program encourages and supports the development of children's minds and bodies through Dalcroze Eurhythmics, a renowned teaching method that pairs music and movement.

Weekly classes for children aged 9 months- to 5-years-old incorporate exercises and games that involve singing, moving, improvising, and using small percussion instruments to promote keen inner hearing and rhythmic sensitivity. Props such as colorful balls, hoops, scarves, and puppets animate musical concepts, engage the senses, and spark the imagination. Even the very youngest children develop focus, spatial awareness, fine and gross motor skills, social skills, and the ability to work with others—all while having fun!

Adult-Child Classes serve our youngest students (9 months to 3 years) who develop joyful bonds with their caregivers as they sing together, listen, and move with the music.

Child-Only Classes are for children aged 3 and up who are ready to attend music class independently.

Older 3-year-olds through kindergarten students may take the first steps in learning to play an instrument in hands-on **First Instrument Classes**. Group classes in piano, violin, flute and guitar introduce the joy of making music with others while teaching basic playing technique, and foundational musical concepts.

Please note that the last five minutes of class is for pack-up and movement between classes.

Listening and Learning in Action

For fives and kindergarten; must have been five by December 31, 2022

Children connect music, movement, expression, and notation in this joyful exploration of fundamental musical skills that contribute to success in instrumental study. Movement-based musical activities develop their sense of rhythm and awareness of musical expression. *Chalk Talk* teaches them the basics of musical notation as they clap and play rhythms on percussion instruments while the teacher notates them on the board. Aural skills are developed through singing accompanied by hand movements that show the motion and contours of the melody. Taught by certified Dalcroze Eurhythmics teachers. Recommended for children who are taking instrumental lessons or are preparing to do so.
